IN THE CIRCUIT COURT OF THE SIXTH JUDICIAL CIRCUIT IN AND FOR PINELLAS COUNTY, FLORIDA CIRCUIT CIVIL

CHRISTOPHER GLEASON,

Plaintiff,

vs.

CASE NO.: <u>23-006698-CI</u>

PINELLAS COUNTY SUPERVISOR OF ELECTIONS OFFICE, JULIE MARCUS, in her official capacity as Supervisor of Elections of Pinellas County, Florida, and DUSTIN CHASE, in his official capacity as Deputy Supervisor of Elections of Pinellas County Florida.

Defendants.

AFFIDAVIT OF CHRISTOPHER GLEASON, ELECTION INTEGRITY, AND DATA-TECHNOLOGY CONSULTANT

STATE OF FLORIDA COUNTY OF PINELLAS

I, Christopher Gleason, being duly sworn, under penalty of perjury testifies as follows:

- 1. I am over the age of eighteen (18) and am otherwise competent to make the statements in this Affidavit.
- 2. I make the following statements of facts based upon my personal knowledge unless the context clearly states otherwise, and if called as a witness, I would testify to these facts.

- 3. I hereby fully incorporate my report "PINELLAS COUNTY FLORIDA PRELIMINARY REPORT – PRECINCT LEVEL REPORTS" as "Exhibit A" attached hereto as "Exhibit A" within my affidavit.
- 4. In the "AFFIDAVIT OF JULIE MARCUS, SUPERVISOR OF ELECTIONS" referenced as Exhibit A by Defendant(s) on page 3 of 5 in Section 11, Marcus states being duly sworn, under penalty of perjury that the EL45A, EL30A, and EL52 reports are not mandated by Florida Statute. While Florida Statute does not specifically mention the reports by the names used by election system manufacturer ES&S the data contained in these reports are 100% mandated by Florida Statute 98.0981. See attached Exhibit A Page 1 of 10, Page 2 of 10 FIGURE 1
- 5. Furthermore, Defendant(s) Julie Marcus falsely claims under penalty of perjury that she retains discretionary authority over the content incorporated within these or similar reports generated from tabulation systems.

Florida Statute 98.0981(2) is very clear that the required duty to provide the data is REQUIRED, as in mandatory and non-discretionary as evidenced by the word SHALL.

6. On March 13, 2023, at 10:55 am Plaintiff submitted a public records request to Defendant(s) requesting the following documents:

"November 2018 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

"November 2020 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

"November 2022 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

- 7. On March 13, 2023, at 11:05 am the Defendant(s) sent an email acknowledging the request.
- 8. On March 29, 2023, at 1:39 pm Defendant(s) responded to the request by attaching scanned paper images in the .pdf file format for the November 2018,

2020, and 2022 General Elections. The documents provided by the Defendant(s) did not conform to the public records request as they were requested in a digital format, such as .csv or XML.

9. Furthermore, the data provided in the document provided did not meet the mandatory, non-discretionary requirements set forth in Florida Statue 98.098(2)(a) "... The results shall specifically include for each precinct the total of all ballots cast for each candidate or nominee to fill a national, state, county, or district office or proposed constitutional amendment, with subtotals for each candidate and ballot type."

According to Florida Statue 98.098(2)(a) "...<u>"All ballots cast"</u> means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

10. Defendant(s) intentionally altered/forged/uttered the requested "FINAL OFFICIAL RESULTS" records requested to exclude "ALL BALLOTS CAST" data. This data is mandatory, and non-discretionary per Florida Statute, 98.098(1) and 98.098(2)(a). These actions on the part of Defendant(s) were done knowingly and willingly. Referring to attached EXHIBIT A, Page 2 of 10, Figure 2 and Page 3 of 10, Figure 3.

In the documents that the Defendant(s) submitted in response to the public records request the altered/forged/uttered documents clearly show that the Defendant(s) forged "FINAL OFFICAL RESULTS" To prove forgery, the following elements are typically required: a. Falsification: It must be demonstrated that someone intentionally altered, made, completed, executed, or authenticated a document, writing, or instrument in a fraudulent manner. b. Fraudulent intent: There should be evidence to show that the act of falsification was done with the intent to deceive or defraud another person or entity. c. Materiality: The forged document or writing should be of legal significance or have some legal consequences. To prove uttering, the following elements are typically required: a. Knowledge of forgery: It must be established that the person knew or had reason to know that the document was forged. b. Presenting or using: There should be evidence to demonstrate that the person knowingly presented or used the forged

document as genuine. c. Intent to deceive or defraud: It must be shown that the person had the intent to deceive or defraud another party by using the forged document.

- 11. The evidence of the forging and uttering of "FINAL OFFICAL RESULTS" can be seen clearly in attached Exhibit A, Pages 4 of 10, FIGURE 4, Page 5 of 10, FIGURE 5, and Page 6 of 10, Figure 6.
- 12.Defendant(s) willfully and knowingly produced forged and uttered documents in a format that did not meet the mandatory, non-discretionary file requirements as set forth in Florida Statute 98.098(2) nor in the uniform format in which they are generated, kept and transmitted. See attached Exhibit A, Page 7 of 10, Figure 7.
- 13.Additionally, Defendant(s) provided a cost estimate to Plaintiff for printing, reviewing, and redacting the EL30A and EL52 reports for November 2018, 2020, and 2022 General Elections. Plaintiff had specifically requested the digital formats, such as .csv or XML.
- 14. According to page 3 of 5 in section 13, Defendant, Julie Marcus admits that the data contained in the EL30A is maintained. However, Defendant, Julie Marcus claims that it is not generated during the normal course of conducting elections. This statement is false. The data contained in the EL30A is required under: Florida Statute 98.0981 (2) PRECINCT-LEVEL ELECTION RESULTS. See attached Exhibit A, Page 7 of 10 and Page 8 of 10, FIGURE 8.
- 15. The image contained in attached Exhibit A, Page 8 of 10 FIGURE 8 clearly shows that REPORT EL30A had been generated on 11/1/20 11:39 AM. The image also shows that the mandatory, non-discretionary data for "Ballots Cast Blank" and "Provisional Ballots" is missing.
- 16.In order to generate a report that does not contain **"Ballots Cast Blank"** and **"Provisional Ballot"** the Defendant(s) would have to intentionally alter the mandatory, non-discretionary, and statutorily required data formats and reports.

Therefore, the statement made by Defendant(s) Marcus and counsel for the Pinellas County Supervisor of Elections office that the reports were not generated is patently false.

- 17.Furthermore, the information that Defendant(s) claim to be contained in the EL30A is false through the "OMISSION" of "PROVISIONAL BALLOTS".
- 18.On page 3 of 5 in section 15. Defendant claims that the data contained in the EL52 REPORT is maintained, however, is not generated during the normal course of conducting elections. Counsel for Plaintiff claims that the EL30A Reports and EL52 Reports are not in existence.

If the EL30A Reports and EL52 Reports are not in existence, then the Defendant(s) have violated Florida Statute 98.0981, they have also failed to perform the mandatory, non-discretionary duties required by law.

19. The counsel for Defendant(s) also claims that there is a massive amount of work that must be done to generate these reports. This statement is also patently false.

Defendant(s) use this as an excuse to charge an unreasonable service charge, with the expressed intent to prevent the disclosure of the mandatory, nondiscretionary production of public records in order to conceal the evidence of their neglect of duty, crimes, and corrupt practices.

The requested data and reports are routinely supplied by Supervisors of Elections across the State of Florida and in other states free of charge without unreasonable costs. See attached Exhibit B

20.Attached as EXHIBIT C are screenshots of these EL45A, EL30A, and EL52 reports.

The screenshots of these reports show with absolute certainty that the Defendant(s) - Pinellas County Supervisor of Elections and the select, high-ranking personnel with access to this data are the only individuals who are capable of altering, forging, and uttering these mandatory, non-discretionary reports and data.

- 21.On page 4 of 5 in section 16. Defendant(s) claim "that the security apparatus and computer systems containing the data and software used are complex in nature."
- 22. The important caveat is "SECURITY APPARATUS". The ES&S software and hardware contain security features such as encryption and hash verification.
- 23.When a file is modified there is an entry in an Audit Log and the file has a hash verification code. Each modification to the file is tracked and logged. Every action is tracked and logged. This Audit Log is called the EL68A. There is also a log that tracks changes made to election results called the EL68. See attached Exhibit A, Page 9 of 10, Figure 9
- 24.Not one document produced by Defendant(s) in the public records requests conformed to mandatory, non-discretional requirements under Florida Statute 98.098(1) or Florida Statute 98.098(2).
- 25.Not one document produced by Defendant(s) was in the electronic format in which they were generated, stored, or transmitted. A scanned paper copy of an altered printed document does not qualify as compliance with any statute.
- 26.A detailed explanation of the importance and relevance of "BLANK BALLOTS CAST" and the contents of the ES&S Election Systems reports is attached as Exhibit D PRELIMINARY REPORT ON MARYLAND ELECTIONS BLANK BALLOTS.
- 27.On May 2, 2023 at 12:57 PM, May 16, 2023 at 4:24 PM, May 17, 2023 at 4:04 PM, Plaintiff made repeated additional public records requests for the following ES&S Election Systems reports:
 - "November 2018 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"
 - "November 2020 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"

 "November 2022 General Election - Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"

The records request specifically requested that this data be provided in the digital format in which this report is generated, kept and transmitted which is a .LST file. See attached Exhibit E

- 28. On May 18, 2023 at 1:42 PM Defendant(s) responded to the Plaintiff's public records request. See attached Exhibit F. The Defendant(s) response to the request did not comply with the mandatory, non-discretionary duties required Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S.,
- 29.Defendant(s) intentionally, knowingly, and willfully did not produce the documents in the file format requested by Plaintiff in violation of their mandatory, non-discretionary duty.
- 30.Defendant(s) once again attempted to not comply with their mandatory, nondiscretionary duties through the imposition of unreasonable service fees in an effort to conceal the evidence of their neglect of duty, crimes, and corrupt practices in violation of the Florida Constitution Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S., .

IN THE CIRCUIT COURT OF THE SIXTH JUDICIAL CIRCUIT IN AND FOR PINELLAS COUNTY, FLORIDA CIRCUIT CIVIL

CHRISTOPHER GLEASON,

Plaintiff,

vs.

CASE NO.: <u>23-006698-CI</u>

PINELLAS COUNTY SUPERVISOR OF ELECTIONS OFFICE, JULIE MARCUS, in her official capacity as Supervisor of Elections of Pinellas County, Florida, and DUSTIN CHASE, in his official capacity as Deputy Supervisor of Elections of Pinellas County Florida.

Defendants.

<u>AFFIDAVIT OF CHRISTOPHER GLEASON, ELECTION INTEGRITY,</u> AND DATA-TECHNOLOGY CONSULTANT

STATE OF FLORIDA COUNTY OF PINELLAS

I, Christopher Gleason, being duly sworn, under penalty of perjury testifies as follows:

- 1. I am over the age of eighteen (18) and am otherwise competent to make the statements in this Affidavit.
- 2. I make the following statements of facts based upon my personal knowledge unless the context clearly states otherwise, and if called as a witness, I would testify to these facts.

- 3. I hereby fully incorporate my report "PINELLAS COUNTY FLORIDA PRELIMINARY REPORT – PRECINCT LEVEL REPORTS" as "Exhibit A" attached hereto as "Exhibit A" within my affidavit.
- 4. In the "AFFIDAVIT OF JULIE MARCUS, SUPERVISOR OF ELECTIONS" referenced as Exhibit A by Defendant(s) on page 3 of 5 in Section 11, Marcus states being duly sworn, under penalty of perjury that the EL45A, EL30A, and EL52 reports are not mandated by Florida Statute. While Florida Statute does not specifically mention the reports by the names used by election system manufacturer ES&S the data contained in these reports are 100% mandated by Florida Statute 98.0981. See attached Exhibit A Page 1 of 10, Page 2 of 10 FIGURE 1
- 5. Furthermore, Defendant(s) Julie Marcus falsely claims under penalty of perjury that she retains discretionary authority over the content incorporated within these or similar reports generated from tabulation systems.

Florida Statute 98.0981(2) is very clear that the required duty to provide the data is REQUIRED, as in mandatory and non-discretionary as evidenced by the word SHALL.

6. On March 13, 2023, at 10:55 am Plaintiff submitted a public records request to Defendant(s) requesting the following documents:

"November 2018 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

"November 2020 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

"November 2022 General Election - EL45A, EL30A, EL52 - OFFICIAL RESULTS"

- 7. On March 13, 2023, at 11:05 am the Defendant(s) sent an email acknowledging the request.
- 8. On March 29, 2023, at 1:39 pm Defendant(s) responded to the request by attaching scanned paper images in the .pdf file format for the November 2018,

2020, and 2022 General Elections. The documents provided by the Defendant(s) did not conform to the public records request as they were requested in a digital format, such as .csv or XML.

9. Furthermore, the data provided in the document provided did not meet the mandatory, non-discretionary requirements set forth in Florida Statue 98.098(2)(a) "... The results shall specifically include for each precinct the total of all ballots cast for each candidate or nominee to fill a national, state, county, or district office or proposed constitutional amendment, with subtotals for each candidate and ballot type."

According to Florida Statue 98.098(2)(a) "...<u>"All ballots cast"</u> means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

10. Defendant(s) intentionally altered/forged/uttered the requested "FINAL OFFICIAL RESULTS" records requested to exclude "ALL BALLOTS CAST" data. This data is mandatory, and non-discretionary per Florida Statute, 98.098(1) and 98.098(2)(a). These actions on the part of Defendant(s) were done knowingly and willingly. Referring to attached EXHIBIT A, Page 2 of 10, Figure 2 and Page 3 of 10, Figure 3.

In the documents that the Defendant(s) submitted in response to the public records request the altered/forged/uttered documents clearly show that the Defendant(s) forged "FINAL OFFICAL RESULTS" To prove forgery, the following elements are typically required: a. Falsification: It must be demonstrated that someone intentionally altered, made, completed, executed, or authenticated a document, writing, or instrument in a fraudulent manner. b. Fraudulent intent: There should be evidence to show that the act of falsification was done with the intent to deceive or defraud another person or entity. c. Materiality: The forged document or writing should be of legal significance or have some legal consequences. To prove uttering, the following elements are typically required: a. Knowledge of forgery: It must be established that the person knew or had reason to know that the document was forged. b. Presenting or using: There should be evidence to demonstrate that the person knowingly presented or used the forged

document as genuine. c. Intent to deceive or defraud: It must be shown that the person had the intent to deceive or defraud another party by using the forged document.

- 11. The evidence of the forging and uttering of "FINAL OFFICAL RESULTS" can be seen clearly in attached Exhibit A, Pages 4 of 10, FIGURE 4, Page 5 of 10, FIGURE 5, and Page 6 of 10, Figure 6.
- 12.Defendant(s) willfully and knowingly produced forged and uttered documents in a format that did not meet the mandatory, non-discretionary file requirements as set forth in Florida Statute 98.098(2) nor in the uniform format in which they are generated, kept and transmitted. See attached Exhibit A, Page 7 of 10, Figure 7.
- 13.Additionally, Defendant(s) provided a cost estimate to Plaintiff for printing, reviewing, and redacting the EL30A and EL52 reports for November 2018, 2020, and 2022 General Elections. Plaintiff had specifically requested the digital formats, such as .csv or XML.
- 14. According to page 3 of 5 in section 13, Defendant, Julie Marcus admits that the data contained in the EL30A is maintained. However, Defendant, Julie Marcus claims that it is not generated during the normal course of conducting elections. This statement is false. The data contained in the EL30A is required under: Florida Statute 98.0981 (2) PRECINCT-LEVEL ELECTION RESULTS. See attached Exhibit A, Page 7 of 10 and Page 8 of 10, FIGURE 8.
- 15. The image contained in attached Exhibit A, Page 8 of 10 FIGURE 8 clearly shows that REPORT EL30A had been generated on 11/1/20 11:39 AM. The image also shows that the mandatory, non-discretionary data for "Ballots Cast Blank" and "Provisional Ballots" is missing.
- 16.In order to generate a report that does not contain **"Ballots Cast Blank"** and **"Provisional Ballot"** the Defendant(s) would have to intentionally alter the mandatory, non-discretionary, and statutorily required data formats and reports.

Therefore, the statement made by Defendant(s) Marcus and counsel for the Pinellas County Supervisor of Elections office that the reports were not generated is patently false.

- 17.Furthermore, the information that Defendant(s) claim to be contained in the EL30A is false through the "OMISSION" of "PROVISIONAL BALLOTS".
- 18.On page 3 of 5 in section 15. Defendant claims that the data contained in the EL52 REPORT is maintained, however, is not generated during the normal course of conducting elections. Counsel for Plaintiff claims that the EL30A Reports and EL52 Reports are not in existence.

If the EL30A Reports and EL52 Reports are not in existence, then the Defendant(s) have violated Florida Statute 98.0981, they have also failed to perform the mandatory, non-discretionary duties required by law.

19. The counsel for Defendant(s) also claims that there is a massive amount of work that must be done to generate these reports. This statement is also patently false.

Defendant(s) use this as an excuse to charge an unreasonable service charge, with the expressed intent to prevent the disclosure of the mandatory, nondiscretionary production of public records in order to conceal the evidence of their neglect of duty, crimes, and corrupt practices.

The requested data and reports are routinely supplied by Supervisors of Elections across the State of Florida and in other states free of charge without unreasonable costs. See attached Exhibit B

20.Attached as EXHIBIT C are screenshots of these EL45A, EL30A, and EL52 reports.

The screenshots of these reports show with absolute certainty that the Defendant(s) - Pinellas County Supervisor of Elections and the select, high-ranking personnel with access to this data are the only individuals who are capable of altering, forging, and uttering these mandatory, non-discretionary reports and data.

- 21.On page 4 of 5 in section 16. Defendant(s) claim "that the security apparatus and computer systems containing the data and software used are complex in nature."
- 22. The important caveat is "SECURITY APPARATUS". The ES&S software and hardware contain security features such as encryption and hash verification.
- 23.When a file is modified there is an entry in an Audit Log and the file has a hash verification code. Each modification to the file is tracked and logged. Every action is tracked and logged. This Audit Log is called the EL68A. There is also a log that tracks changes made to election results called the EL68. See attached Exhibit A, Page 9 of 10, Figure 9
- 24.Not one document produced by Defendant(s) in the public records requests conformed to mandatory, non-discretional requirements under Florida Statute 98.098(1) or Florida Statute 98.098(2).
- 25.Not one document produced by Defendant(s) was in the electronic format in which they were generated, stored, or transmitted. A scanned paper copy of an altered printed document does not qualify as compliance with any statute.
- 26.A detailed explanation of the importance and relevance of "BLANK BALLOTS CAST" and the contents of the ES&S Election Systems reports is attached as Exhibit D PRELIMINARY REPORT ON MARYLAND ELECTIONS BLANK BALLOTS.
- 27.On May 2, 2023 at 12:57 PM, May 16, 2023 at 4:24 PM, May 17, 2023 at 4:04 PM, Plaintiff made repeated additional public records requests for the following ES&S Election Systems reports:
 - "November 2018 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"
 - "November 2020 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"

 "November 2022 General Election - Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log"

The records request specifically requested that this data be provided in the digital format in which this report is generated, kept and transmitted which is a .LST file. See attached Exhibit E

- 28. On May 18, 2023 at 1:42 PM Defendant(s) responded to the Plaintiff's public records request. See attached Exhibit F. The Defendant(s) response to the request did not comply with the mandatory, non-discretionary duties required Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S.,
- 29.Defendant(s) intentionally, knowingly, and willfully did not produce the documents in the file format requested by Plaintiff in violation of their mandatory, non-discretionary duty.
- 30.Defendant(s) once again attempted to not comply with their mandatory, nondiscretionary duties through the imposition of unreasonable service fees in an effort to conceal the evidence of their neglect of duty, crimes, and corrupt practices in violation of the Florida Constitution Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S., .

AFEFANT SAYS NOTHING FURTHER.

Christopher Gleason

STATE OF FLORIDA COUNTY OF PINELLAS

The foregoing affidavit was acknowledged before me, this day of May, 2023, by Christopher Gleason, who is personally known to me and who has produced a Florida Driver License as identification, and being first duly sworn on oath according to law, deposes and says that he has read the foregoing Affidavit subscribed by her, and that the matters stated therein are true to the best of his information, knowledge and belief.

Exhibit A

PINELLAS COUNTY FLORIDA

PRELIMINARY REPORT

PRECINCT-LEVEL REPORTS

PINELLAS COUNTY FLORIDA PRELIMINARY REPORT - PRECINCT-LEVEL REPORTS

In the "AFFIDAVIT OF JULIE MARCUS, SUPERVISOR OF ELECTIONS" as Exhibit A by Defendant(s) – on page 3 of 5 in Section 11, Marcus states being duly sworn, under penalty of perjury that the EL45A, EL30A, and EL52 reports are not mandated by Florida Statute. While Florida Statute does not specifically mention the reports by the names used by election system manufacturer ES&S the data contained in these reports are 100% mandated by Florida Statute 98.0981.

Furthermore, Julie Marcus falsely claims under penalty of perjury that she retains discretionary authority over the content incorporated within these or similar reports generated from tabulation systems.

Florida Statute 98.0981(2) is very clear that the required duty to provide the data is REQUIRED, as in mandatory and NON-Discretionary as evidenced by the word SHALL.

98.0981 (2) PRECINCT-LEVEL ELECTION RESULTS.

(a) Within 30 days after certification by the Elections Canvassing Commission of a presidential preference primary election, special election, primary election, or general election, the supervisors of elections shall collect and submit to the department precinct-level election results for the election in a uniform electronic format specified by paragraph (c). The precinct-level election results shall be compiled separately for the primary or special primary election that preceded the general or special general election, respectively. The results shall specifically include for each precinct the total of all ballots cast for each candidate or nominee to fill a national, state, county, or district office or proposed constitutional amendment, with subtotals for each candidate and ballot type. However, ballot type or precinct subtotals in a race or question having fewer than 30 voters voting on the ballot type or in the precinct may not be reported in precinct results. "All ballots cast" means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

(b) The department shall make such information available on a searchable, sortable, and downloadable database via its website that also includes the file layout and codes. The database shall be searchable and sortable by county, precinct, and candidate. The database shall be downloadable in a tab-delimited format. The database shall be available for download county-by-county and also as a statewide file. Such report shall also be made available upon request.

(c) The files containing the precinct-level election results shall be created in accordance with the applicable file specification:

1. The precinct-level results file shall be created or converted into a tab-delimited text file.

 The row immediately before the first data record shall contain the column names of the data elements that make up the data records. There shall be one header record followed by multiple data records. According to ES&S in the figure below the following reports are generated in the administration of elections:

This section will explain the different report options that you can select for the reports.

- 1. From the **Reports** menu and click the report you want to generate.
 - Precinct
 - **EL30, Precinct Report**: A Precinct Summary Report is a list of individual precincts and contest results. Customize the Precinct Summary Report by selecting the individual contests and precincts that are included. You can also print a Precinct Summary Report for individual reporting groups.
 - **EL30A, Prec Report–Group Detail:** The Precinct Summary Report with Group Detail is similar to the Precinct Summary report. You can use it to print totals for up to fourteen active reporting groups in addition to Election Totals.
 - Election
 - **EL45, Election Summary Report**: An Election Summary Report lists the total number of votes received by each candidate/question and the percent of the total vote won by each candidate/question in your election.
 - **EL45A, Election Summary with Group Detail**: Generate an Election Summary with Group Detail to print totals for up to fourteen active reporting groups in addition to election totals.

This will open up the window to select the options for the reports.

FIGURE 1

The options are then selected by the individual within the Supervisor of Elections Office. See the figure below.

9. Select the contests that you want to include in your report from the list.

| Contests | X |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|

NOTE: To select multiple items in a list hold down the CTRL key and select individual items. To select a group of items from a list hold down SHIFT and drag your cursor over the items that you want to select.

FIGURE 3

According to FS 98.0981(2) - "All ballots cast" means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

According to FS 98.0981(2)(b) - The department shall make such information available on a searchable, sortable, and downloadable database via its website that also includes the file layout and codes. The database shall be searchable and sortable by county, precinct, and candidate. The database shall be downloadable in a tab-delimited format. The database shall be available for download county-by-county and also as a statewide file. **Such report shall also be made available upon request.**

On page 3 of 5 in section 12. Marcus falsely states under penalty of perjury that the EL45A Official Results for November 2018, 2020, and 2022 General Elections were generated and electronically provided to Plaintiff, unredacted and in their maintained format at no cost.

2018 - REPORT -EL45A - FINAL OFFICIAL RESULTS

Clearly the 2018 – EL45A – FINAL OFFICIAL RESULTS does not contain all the data as required by Florida Statute 98.0981(2)(a) "All ballots cast" means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

THE "BALLOTS CAST – BLANK" CATEGORY OF BALLOTS WAS PURPOSEFULLY OMITTED WHEN THE REPORT WAS GENERATED IN CLEAR VIOLATION OF FLORIDA STATUTE 98.0981(2)(a).

Furthermore, the reports generated and provided were not in the .LST file format or tab-delimited text file as required under Florida Statute 98.0981 (2) (c) The files containing the precinct-level election results **shall be** created in accordance with the applicable file specification:

The precinct-level results file shall be created or converted into a tab-delimited text file.
 The row immediately before the first data record shall contain the column names of the data

 The row immediately before the first data record shall contain the column names of the data elements that make up the data records. There shall be one header record followed by multiple data records.

2022 REPORT-EL45A – FINAL OFFICIAL RESULTS

Clearly the 2020 – EL45A – FINAL OFFICIAL RESULTS does not contain all the data as required by Florida Statute "All ballots cast" means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

THE "BALLOTS CAST – BLANK" CATEGORY OF BALLOTS WAS PURPOSEFULLY OMITTED WHEN THE REPORT WAS GENERATED AND THE PROVISIONAL BALLOTS SECTION WAS ALSO REMOVED IN CLEAR VIOLATION OF FLORIDA STATUTE 98.0981(2)(a).

Furthermore, the reports generated and provided were not in the .LST file format or tab-delimited text file as required under Florida Statute 98.0981 (2) (c) The files containing the precinct-level election results **shall be** created in accordance with the applicable file specification:

1. The precinct-level results file shall be created or converted into a tab-delimited text file.

 The row immediately before the first data record shall contain the column names of the data elements that make up the data records. There shall be one header record followed by multiple data records.

The EL45A reports for 2018, 2020, and 2022 November General Elections were not provided by Defendant(s) to Plaintiff in their unredacted, maintained format as was duly sworn, under penalty of perjury by Julie Marcus in violation of their mandatory, non-discretionary duties.

The EL45A reports for the 2018, 2020, and 2022 November General Elections provided by Defendant(s) to Plaintiff did not meet the mandatory, non-discretionary requirements of their duties under Florida Statutes 98.0981.

The EL45A reports for the 2018, 2020, and 2022 November General Elections provided by Defendant(s) to Plaintiff were illegally altered to hide the mandatory, non-discretionary requirements of their duties and adherence to mandatory, non-discretionary data requirements under Florida Statutes 98.0981.

Counsel for Plaintiff(s) claims that "there is absolutely no evidence that any redactions have been made to the documents provided to Plaintiff by the Defendant(s)". The documents provided by the Defendant(s) provide

prima facie evidence that not only were there redactions but that the Defendant(s) did not do their mandatory, non-discretionary duties.

Furthermore, the evidence provided by Defendant(s) shows beyond any doubt, with absolute certainty that Defendant(s) illegally altered, forged, and uttered false election documents.

The image below is a screenshot from the Precinct and Election Report Options section in the ES&S ELECTION REPORTING MANAGER USER GUIDE.

The generation of any report using the ES&S - ELECTION REPORTING MANAGER that is not in the .LST file format or tab-delimited text file does not comply with the data requirements mandated in Florida Statute 98.0981. This is a mandatory, non-discretionary duty to be performed by the Supervisors of Elections.

EL30A – Precinct Report – group detail

According to page 3 of 5 in section 13, Defendant, Julie Marcus admits that the data contained in the EL30A is maintained.

However, Defendant, Julie Marcus claims that it is not generated during the normal course of conducting elections. This statement is false. The data contained in the EL30A is required under:

Florida Statute 98.0981 (2) PRECINCT-LEVEL ELECTION RESULTS.-

(a) Within 30 days after certification by the Elections Canvassing Commission of a presidential preference primary election, special election, primary election, or general election, the supervisors of elections shall collect and submit to the department precinct-level election results for the election in a uniform electronic format specified by paragraph (c).

This is a mandatory, non-discretionary duty, to be performed by the Supervisors of Elections. This report contains data for all precincts, for all races including "All ballots cast" means ballots cast by voters who cast a ballot whether at a precinct location, by vote-by-mail ballot including overseas vote-by-mail ballots, during the early voting period, or by provisional ballot.

Below is a screenshot of a EL30A Report that Defendant(s) claim that was not generated. The EL30A Report also does not contain "All Ballots Cast" data including "BALLOTS CAST- BLANK" and does not contain the required provisional ballot data. This screenshot was obtained directly from the Pinellas Supervisor of Elections website in the 2020 General Election section containing the "POST ELECTION AUDIT".

FIGURE 8

In order to generate a report that does not contain "**Ballots Cast – Blank**" and "**Provisional Ballot**" the Defendant(s) would have to intentionally alter the mandatory, non-discretionary, and statutorily required data formats and reports.

Therefore, the statement made by Defendant(s) Marcus and counsel for the Pinellas County Supervisor of Elections office that the reports were not generated is patently false.

Furthermore, the information that Defendant(s) claim to be contained in the EL30A is false through the "OMISSION" of "PROVISIONAL BALLOTS".

On page 3 of 5 in section 15. Defendant claims that the data contained in the EL52 REPORT is maintained, however, is not generated during the normal course of conducting elections. Counsel for Plaintiff claims that the EL30A Reports and EL52 Reports are not in existence.

If the EL30A Reports and EL52 Reports are not in existence, then the Defendant(s) have violated Florida Statute 98.0981, they have also failed to perform the mandatory, non-discretionary duties required by law.

The counsel for Defendant(s) also claims that there is a massive amount of work that must be done to generate these reports. This statement is also patently false.

Defendant(s) use this as an excuse to charge an unreasonable service charge, with the expressed intent to prevent the disclosure of the mandatory, non-discretionary production of public records in order to conceal the evidence of their neglect of duty, crimes, and corrupt practices.

The requested data and reports are routinely supplied by Supervisors of Elections across the State of Florida and in other states free of charge without unreasonable costs.

Attached, as Exhibit X are emails from numerous Supervisors of Elections in Florida that have provided free of charge, the EL52 and EL30A reports.

Attached as Exhibit Y are screenshots of these EL45A, EL30A, and EL52 reports.

The screenshots of these reports show with absolute certainty that the Defendant(s) - Pinellas County Supervisor of Elections and the select, high-ranking personnel with access to this data are the only individuals who are capable of altering, forging, and uttering these mandatory, non-discretionary reports and data.

On page 4 of 5 in section 16. Defendant(s) claim that the security apparatus and computer systems containing the data and software used are complex in nature.

This statement is factually correct. The important caveat is "SECURITY APPARATUS". The ES&S software and hardware contain security features such as encryption and hash verification.

When a file is modified there is an entry in an Audit Log and the file has a hash verification code. Each modification to the file is tracked and logged. Every action is tracked and logged. This Audit Log is called the EL68A. There is also a log that tracks changed made to election results called the EL68.

Generate log reports to check the status of your election equipment and software. Refer to your log reports if any errors occur during the vote counting process.

System Log: Generate a System Log report to list every action performed in your election system in chronological order.

Results Corrections Log: Generate the Results Corrections Log to view user altered election totals. The Results Corrections Log lists your candidate names, any user altered totals, the date and time that election totals were altered and the original totals for each user altered contest.

Real Time Log: This report is not available in this version of ERM.

650 Network Server Log: This option is no longer supported.

System Log

THE PRODUCTION OF THE SYSTEM LOGS ARE THE ONLY ASSURANCE THE SUPERVISORS OF ELECTIONS PROVIDE TO PROVE THAT OUR ELECTIONS ARE SECURE AND FAIR

ERM maintains one audit file that records log records for activities performed within the application. The creation of this audit file cannot be disabled by the ERM application.

NOTE: The System Log is not erased when the results database is reset or recreated.

PUBLIC RECORDS REQUEST REPLIES FOR ES&S ELECTION SYSTEMS REPORTS, FLORIDA ELECTIONS SUMMARY REPORTS, FLORIDA ELECTION PRECINCT REPORTS

PublicRecordsRequest ElectionData <electionspublicrecordsrequest@gmail.com>

Response to your Public Information Act Request- March 2023

Tracey E. Hartman -SBE- <traceye.hartman@maryland.gov> To: PublicRecordsRequest ElectionData <electionspublicrecordsrequest@gmail.com> Thu, Mar 16, 2023 at 11:32 AM

Good morning,

This email is in response to your Public Information Act request, received by the Maryland State Board of Elections on March 8, 2023, requesting copies of the EL45a, EL30a, and EL52s reports from the voting system used by the Maryland State Board of Elections and local election offices within the State for the 2016, 2018, 2020, and 2022 General Elections. A number of local boards of elections in Maryland have received the same request. Please note that this email additionally serves as a response to any requests you have sent to local boards of election requesting the same information, and any requests that you intend to send in the near future.

The reports for each local board of elections can be downloaded from HERE. This link will take you to a folder named "electionspublicrecordsrequest@gmail.com" on the Microsoft OneDrive. In that folder, there is a subfolder for each requested election, and in each subfolder are the reports for each local board of election. Please note that EL52 reports were not required by the local boards to be produced in 2016, so there are no EL52 reports for 2016. Additionally, there are no reports at all for Baltimore City from 2016 or 2018, and no EL30a or El52 reports for Mongomery County in 2020. You will have to contact those two local boards directly for those specific reports if you require them.

Please let me know if you have questions or have issues accessing the files. The files will be available to you until Friday April 7, 2023.

Thank you,

Tracey Hartman Maryland SBE

Joe Scott Supervisor of Elections Broward Supervisor of Elections

RE: Broward Supervisor of Elections PUBLIC RECORDS REQUEST Joe Scott Nov 2018 Nov 2020 & Aug 2022 Report EL52 also known as NUMBERED KEY CANVAS REPORT

Dear Joe Scott:

Pursuant to Article I, section 24 of the Florida Constitution, Chapter 119, F.S., and Chapter 98, F.S. I am requesting the following: copies of **reports** within the Broward Supervisor of Elections (SoE) office:

- November 2018 General Election Report EL52
- November 2020 General Election Report EL52
- August 2022 Primary Election Report EL52
- The EL52 Report is also known as the NUMBERED KEY CANVAS REPORT to assist you in understanding which reports we are referring to please see the following link: https://www.browardvotes.gov/ Portals/Broward/Documents/2020Elections/EL52S.html

We are requesting that this data be provided in a digital format, such as .csv, .txt or whichever format that you use to keep track of this data.

We are requesting that this data be provided for the time period covering January 1, 2018 to Present.

In compliance with FS 98.015(13)(a), F.S., no request being presented in this FOIA document would "facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

- 1. Data or information, whether physical or virtual; or
- 2. Information technology resources as defined in s. 119.011(9), which includes:

a. Information relating to the security of a supervisor of elections' technology, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

b. Security information, whether physical or virtual, which relates to a supervisor of elections' existing or proposed information technology systems."

Therefore, no part of this request should be denied. However, should you deny my request, or any part of the request, please state in writing the basis for the denial, including the exact statutory citation authorizing the denial as required by s. 119.07(1)(e), F.S.; and clearly print your name and title, and sign this denial.

I will contact your office within 24 hours to discuss when I may expect the fulfillment of my request. If you have any questions, please contact me at the email below.

Respectfully,

FL SoE FOIA Request

Hello,

Thank you very much for contacting the Orange County Supervisor of Elections office. In response to your request, please refer to the following:

1. EL30A and EL45A are located on our website at Election Results and Turnout | Orange County Supervisor of Elections (ocfelections.gov)

2. EL52, please refer to the attachments.

3. The request for the total amount of E-poll affidavits signed for the 2022 primary and general elections is under review for a response.

I've included below a link to our public records request policy.

Public Records Policy.pdf (ocfelections.com)

Please note we respond to public records requests in the order they are received, and we work to fulfill all requests as quickly as possible; if your request is received immediately before or during the administration of an election, a response may be necessarily delayed due to the priority of this office's statutory election duties.

Please direct all your future correspondences to Records@ocfelections.gov.

Sincerely,

Records Department Orange County Supervisor of Elections

Phone: 407-836-2070

Fax: 407-254-6545

Dear Sirs~

Hi. Is it possible to get the EL52, EL30A and EL45A for 2020 and 2022? I realize you may not still have the 2020 and in that case just the 2022 would be great if you don't have the 2020 available. Any of the requested information would be very helpful.

Also, is it possible to get the total amount of epoll affidavits signed for the 2022 primary and general elections?

Thanks in advance...

Jill Vawter

Hendry County Supervisor of Elections

RE: Hendry County Supervisor of Elections PUBLIC RECORDS REQUEST Brenda Hoots Nov 2018, Nov 2020, Nov 2022 Report EL30A

Dear Brenda Hoots:

Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, F.S., I am requesting the following: copies of reports within the Hendry Supervisor of Elections (SoE) office:

- * November 2018 General Election Report EL30A
- * November 2020 General Election Report EL30A
- * November 2022 General Election Report EL30A

We are requesting that this data be provided in a digital format, such as .csv, .txt or whichever format that you use to keep track of this data.

We are requesting that this data be provided for the time period covering October 1, 2018 to Present.

In compliance with FS 98.015(13)(a), F.S., no request being presented in this FOIA document would "facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

1. Data or information, whether physical or virtual; or

2. Information technology resources as defined in s. 119.011<<u>https://www.flsenate.gov/Laws/Statutes/2021/119.011>(9)</u>, which includes:

a. Information relating to the security of a supervisor of elections' technology, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

b. Security information, whether physical or virtual, which relates to a supervisor of elections' existing or proposed information technology systems."

Therefore, no part of this request should be denied. However, should you deny my request, or any part of the request, please state in writing the basis for the denial, including the exact statutory citation authorizing the denial as required by s. 119.07(1)(e), F.S.; and clearly print your name and title, and sign this denial.

I will contact your office within 24 hours to discuss when I may expect the fulfillment of my request. If you have any

PINELLAS COUNTY MISSING "ALL BALLOTS CAST" DATA, NO HASH VERIFICATION,

Exhibit D

PRELIMINARY REPORT ON MARYLAND ELECTIONS BLANK BALLOTS

PRELIMINARY REPORT ON MARYLAND ELECTIONS BLANK BALLOTS

A. BALLOTS CAST – BLANK EXPLAINED

 The following is a breakdown of the ballots cast in the 2020 November Election for a single precinct in Baltimore County Maryland. This data was extracted from the OFFICAL RESULTS ES&S Precinct Summary Report in Detail. This election results report is referred to as the EL30A report.

The red rectangle represents the total votes cast that were classified as **"BALLOTS CAST – BLANK"**. This category of **BALLOTS CAST – BLANK** can be seen as reflected in each of the five ballot categories. **EV, ED, MB1, Prov, MB2**

The blue circled numbers reflect the following:

- Total Number of Blank Ballots Cast
- Blank Ballots as a Percentage of All Ballots Cast In This Precinct
- Blank Ballots Cast In Early Voting
- Blank Ballots Cast On Election Day
- Blank Ballots Cast by Mail in Ballot Category 1
- Blank Ballots Cast as Provisional Ballots
- Blank Ballots Cast by Mail in Ballot Category 2

Every single ballot that was cast by a Maryland voter and then classified as a "BALLOTS CAST – BLANK" is the ballot of a voter being disenfranchised.

Blank ballots being cast in such large numbers are a clear indicator of either voting system machine hardware errors, software accuracy errors, machine tampering, or some other illegal activity used to materially affect the outcome of an election.

In this particular precinct in Baltimore County Maryland over 25% of all the ballots cast by voters have been classified as "BLANK BALLOTS".

2. BLANK BALLOTS AS DEFINED BY ES&S IN THE DS850 OPERATORS MANUAL

Blank Ballots are defined as ballots with one of the three characteristics:

a.) Ballots that do not contain any votes,

b.) have been marked with a non-standard marking device that the DS850 cannot read

c.) have been marked improperly.

| | Chapter 5: Pre-Election Day Tasks |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bin Sor | ting |
| There are t Options. | wo options on the Bin Sorting screen: Sort Settings and Scan Screen Sort |
| Sort Settir | ıgs |
| diverted to | ettings option allows you to specify which output bin the ballots will be It also allows you to specify whether undervotes, overvotes, crossovers, ts, and ballots with unclear marks are to be processed. |
| | Note: ElectionWare provides the ability to set bin sorting in the Election Definition. If you want to use settings that are different from the ones in the Election Definition, you can use the bin sorting screens to change the settings on the scanner. |
| 0 | If the Sorting on/off feature is enabled, you can override the default settings for bin sorting in the Election Definition, as well as any changes that have been made using the Bin Sorting screens, by turning sorting off from the Scan Ballots screens. When the Sorting on/off feature is enabled, there is a button on the scan ballots screens that allows the user to turn sorting on or off. The middle bin is not able to be changed and will always follow the ElectionWare defaults |
| - | Reference: See the ES&S ElectionWare Volume IV: Deliver User's Guide for additional information on ElectionWare. |
| | |

See Sorting On/Off Feature for information on the impacts of turning sorting off.

| Write-In | A write-in space appears on the ballot as a voting target next to a blank line that a voter uses to fill in the name of a write-in candidate. To vote for a write-in candidate, a voter writes the name of the candidate on the write-in line and marks the ballot target that corresponds to the line. |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Overvote | Ballots having more than the allowed number of votes cast for one or more contests |
| Undervote | The election definition can designate one or more contests as an "undervote-contest". This option out-stacks any scanned ballot that has a designated undervote contest that was undervoted. This option does not out-stack blank ballots |
| Blank Ballots | This option out-stacks ballots that do not contain any votes, have been marked with a non-standard marking device for the DS850, or have been marked improperly (for example, the voter circled the candidate's name instead of filling in the appropriate oval). |

3. The ES&S DS200 machine MUST be set up to always accept the blank ballots without alerting the voter to check the ballot for this many ballots to be accepted as blank if they are indeed blank. These are CAST ballots, not pre-printed and not used stock, in order to be counted as a blank ballot here. The image below was captured from the operator's manual for the ES&S DS200 which is used in precincts to tabulate voters' cast ballots.

Blank Ballots

If the ballot is blank, the DS200 can be setup to identify these ballots.

- Press Correct Your Ballot to return the ballot to the voter. The voter then can review and mark the ballot.
- Press Cast Blank Ballot to cast the ballot without making any changes.

Important: If Always Accept is selected in the Blank Ballot field in the in the DS200 settings in ElectionWare, the Blank Ballot screen will not appear.

If Always Reject is selected in n the DS200 settings in ElectionWare, the ballot will not be able to be processed until all mistakes are resolved.

Reference: For more information about the Set Tabulator Parameters window in ElectionWare, refer to the Tabulator Settings heading in Chapter 5: Generate Elections in the *ElectionWare System Operations Procedures* manual.

 EAC – Voting Systems Performance Guidelines: Accuracy and Functional Requirements For Software used in voting systems. In the following section of the EAC certification, the accuracy requirement is very clear, as it states: "SHALL MAINTAIN ABSOLUTE CORRECTNESS".

"g. In all systems, voting system software, firmware, and hardwired logic **shall** maintain absolute correctness (introduce no errors) in the recording, tabulating, and reporting of votes".

2.1.2 Accuracy

Memory hardware, such as semiconductor devices and magnetic storage media, must be accurate. The design of equipment in all voting systems **shall** provide for the highest

15

Voting System Performance Guidelines 2 Functional Requirements

possible levels of protection against mechanical, thermal, and electromagnetic stresses that impact system accuracy. Section 4 provides additional information on susceptibility requirements.

To ensure vote accuracy, all systems shall:

- a. Record the election contests, candidates, and issues exactly as defined by election officials
- b. Record the appropriate options for casting and recording votes
- Record each vote precisely as indicated by the voter and produce an accurate report of all votes cast;
- d. Include control logic and data processing methods incorporating parity and check-sums (or equivalent error detection and correction methods) to demonstrate that the system has been designed for accuracy
- e. Provide software that monitors the overall quality of data read-write and transfer quality status, checking the number and types of errors that occur in any of the relevant operations on data and how they were corrected

In addition, DRE systems shall:

f. As an additional means of ensuring accuracy in DRE systems, voting devices shall record and retain redundant copies of the original ballot image. A ballot image is an electronic record of all votes cast by the voter, including undervotes.

The accuracy benchmark specified in Section 4.1.1 is intended to allow tolerance for unpreventable hardware-related errors that occur rarely and randomly as a result of physical phenomena. It is not intended to allow tolerance of software faults that result in systematic miscounting of votes. As was written in Section 7.1.1 of the 1990 VSS, "In this case, no margin for error exists." Therefore,

g. In all systems, voting system software, firmware, and hardwired logic **shall** maintain absolute correctness (introduce no errors) in the recording, tabulating, and reporting of votes.

5. EAC – Voting Systems Performance Guidelines: Accuracy for Hardware Requirements. The benchmark is derived from the "maximum acceptable error rate of 1 in 125,000. Therefore 2 or more errors in every 125,000 votes would exceed the maximum acceptable error rate.

4.1.1 Accuracy Requirements

The following requirements are intended to allow tolerance for unpreventable hardwarerelated errors that occur rarely and randomly as a result of physical phenomena. They are not intended to allow tolerance of software faults that result in systematic miscounting of votes. Section 2.1.2 includes a requirement for accuracy of logic.

- a. All systems **shall** achieve a report total error rate of no more than one in 125,000 (8×10^{-6}) .
- b. Given a set of vote data reports, the observed cumulative report total error rate **shall** be calculated as follows.

Voting System Performance Guidelines 4 Hardware Requirements

⁷⁹

 EAC – Voting Systems Performance Guidelines: Accuracy Requirement Hardware Calculations. According to the EAC guidelines as prescribed under the Help America Vote Act of 2002 presenting this benchmark in terms of votes instead of ballot positions provides a more precise metric for the evaluation of accuracy.

> Voting System Performance Guidelines 4 Hardware Requirements

- i. Define a "report item" as any one of the numeric values (totals or counts) that must appear in any of the vote data reports. Each ballot count, each vote, overvote, and undervote total for each contest, and each vote total for each contest choice in each contest is a separate report item. The required report items are detailed in Volume I Section 2.4.3.
- ii. For each report item, compute the "report item error" as the absolute value of the difference between the correct value and the reported value. Special cases: If a value is reported that should not have appeared at all (spurious item), or if an item that should have appeared in the report does not (missing item), assess a report item error of one. Additional values that are reported as a manufacturer extension to the standard are not considered spurious items.
- iii. Compute the "report total error" as the sum of all of the report item errors from all of the reports.
- iv. Compute the "report total volume" as the sum of all of the correct values for all of the report items that are supposed to appear in the reports. Special cases: When the same logical contest appears multiple times, e.g. when results are reported for each ballot configuration and then combined or when reports are generated for multiple reporting contexts, each manifestation of the logical contest is considered a separate contest with its own correct vote totals in this computation.
- v. Compute the observed cumulative report total error rate as the ratio of the report total error to the report total volume. Special cases: If both values are zero, the report total error rate is zero. If the report total volume is zero but the report total error is not, the report total error rate is infinite.

The benchmark of one in 125,000 (8×10^{-6}) is derived from the "maximum acceptable error rate" used as the lower test benchmark in the 2005 Voluntary Voting System Guidelines Version 1.0. That benchmark was defined as a ballot position error rate of one in 500,000 (2×10^{-6}). The benchmark of one in 125,000 is expressed in terms of votes¹¹, however it is consistent with the previous benchmark in that the estimated ratio of votes to ballot positions is ¹⁴.

Given that there is no "typical" ratio of votes to ballot positions with such diversity among the many jurisdictions, it is nevertheless necessary to base the benchmark on some rough estimates in order that it may be in the correct order of magnitude, albeit not optimal for every case. The estimated ratio was derived as follows. In a presidential election, there would be approximately 20 contests with a vote for 1 on each ballot with an average of 4 candidates, including the write-in position, per contest. (Some states would have fewer contests and some more. A few contests, like President, would have 8– 13 candidates; most would have 3 candidates including the write-in, and a few would have 2 candidates.) Thus, the estimated ratio of votes to ballot positions is ¼.

80

¹¹ The error rate was originally defined in Volume 1 of the 2002 Voting System Standards and is prescribed by Sec. 301(a)(5) of the Help America Vote Act of 2002. Expressing this benchmark in terms of votes instead of ballot positions provides a more precise metric for the evaluation of accuracy.

Re: Public Records Request

Christopher Gleason <cpgleason72@gmail.com>

To: "Chase, Dustin" <dchase@votepinellas.gov> Cc: "Chase, Dustin" <dchase@votepinellas.gov>, "Closterman, Tim" <ticlosterman@votepinellas.gov>, "McKnight-Taylor, Ashley" <ataylor@votepinellas.gov>, "Smith, Matt" <masmith@votepinellas.gov>, "Gillette, Marc" <mgillette@votepinellas.gov>, "Keefe, Andrew" <akeefe@pinellas.gov>, "Kahn, Jared D" <jkahn@pinellas.gov>

Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S., I am requesting the following: copies of reports within the Pinellas Supervisor of Elections (SoE) office:

- November 2018 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
 November 2020 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
 November 2022 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log

We are requesting that this data be provided in the digital format in which this report is generated, kept and transmitted which is a .LST file.

We are requesting that this data be provided for the time period covering October 1, 2018 to Present.

In compliance with FS 98.015(13)(a), F.S., no request being presented in these PUBLIC RECORDS REQUEST documents would "facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

- 1. Data or information, whether physical or virtual; or
- 2. Information technology resources as defined in s. 119.011(9), which includes:
- a. Information relating to the security of a supervisor of elections' technology, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or
- b. Security information, whether physical or virtual, which relates to a supervisor of elections' existing or proposed information technology systems."

Therefore, no part of this request should be denied. However, should you deny my request, or any part of the request, please state in writing the basis for the denial, including the exact statutory citation authorizing the denial as required by s. 119.07(1)(e), F.S.; and clearly print your name and title, and sign this denial.

I will contact your office within 24 hours to discuss when I may expect the fulfillment of my request. If you have any questions, please contact me via email.

Warmest regards, [Quoted text hidden]

Re: Public Records Request

Christopher Gleason <cpgleason72@gmail.com> Tue, Ma To: "Chase, Dustin" <dchase@votepinellas.gov> Cc: "Closterman, Tim" <ticlosterman@votepinellas.gov>, "McKnight-Taylor, Ashley" <ataylor@votepinellas.gov>, "Smith, Matt" <masmith@votepinellas.gov>, "Gillette, Marc" <mgillette@votepinellas.gov>, "Keefe, Andrew" <akeefe@pinellas.gov>, "Kahn, Jared D" <jkahn@pinellas.gov>, "Chase, Dustin" <dchase@votepinellas.gov>

Good afternoon,

I am following up with my public records request dated May 2, 2023.

Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S., I am requesting the following: copies of reports within the Pinellas Supervisor of Elections (SoE) office:

- November 2018 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
 November 2020 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
- November 2022 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log

I am requesting that this data be provided in the digital format in which this report is generated, kept and transmitted which is a .LST file or .txt or .XML

I am requesting that this data be provided for the time period covering October 1, 2018 to Present.

The information requested in my public records request can be satisfied by electronically transmitting data/records/documents held in their original, electronic, unredacted, unaltered format. It is my understanding that according to Pinellas County Public Records Liaison Guidelines, there should be no charge.

Furthermore, the effort required to fulfill this request should be under 15 minutes and is not extensive in time or resources to generate and transmit.

I would also like to remind you that the courts have held public records that are relevant to the issues in pending litigation and are not exempt from disclosure in Times Publishing Co. v. State, 558 So. 2d 487, 491 (Fla. 1990).

I look forward to your prompt response.

Warm regards,

Christopher Gleason

Good afternoon,

I am following up with my public records requests dated May 2, 2023 and May 16, 2023. This is now my third request for the following documents:

Pursuant to Article I, section 24 of the Florida Constitution, and Chapter 119, Chapter 98 F.S., I am requesting the following: copies of reports within the Pinellas Supervisor of Elections (SoE) office:

- November 2018 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
 November 2020 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log
- November 2022 General Election Report EL68A System Log, EL68, Manual Entry Report, & Results Corrections Log

I am requesting that this data be provided in the digital format in which this report is generated, kept and transmitted which is a .LST file

I am requesting that this data be provided for the time period covering October 1, 2018 to Present.

The information requested in my public records request can be satisfied by electronically transmitting data/records/documents held in their original, electronic, unredacted, unaltered format. It is my understanding that according to Pinellas County Public Records Liaison Guidelines, there should be no charge.

Furthermore, the effort required to fulfill this request should be under 15 minutes and is not extensive in time or resources to generate and transmit.

I would also like to remind you that the courts have held public records that are relevant to the issues in pending litigation and are not exempt from disclosure in Times Publishing Co. v. State, 558 So. 2d 487, 491 (Fla. 1990).

I look forward to your prompt response.

Warm regards,

Christopher Gleason

To: "cpgleason72@gmail.com" <cpgleason72@gmail.com>, Florida SoE FOIA Requests <floridasoefoiarequests@gmail.com> Cc: "Chase, Dustin" <dchase@votepinellas.gov>, "Closterman, Tim" <ticlosterman@votepinellas.gov>, "Kefe, Andrew" <akeefe@pinellas.gov>, "McKnight-Taylor, Ashley" <ataylor@votepinellas.gov>, "Smith, Matt" <masmith@votepinellas.gov>, "Gilette, Marc" <mgillette@votepinellas.gov>, "Kahn, Jared D" <jkahn@pinellas.gov>

Good afternoon:

Thank you for your email.

Attached are the records responsive to your request for the EL68, provided at no cost.

In reference to the EL68A, our search resulted in more than 5,000 pages per year that are responsive to your request. Due to the setup of our systems, we anticipate additional pages once we initiate the processing. We would update you with exact numbers as we progress.

According to Fla. Statute 119.07(4)(a), the charge for each sheet of paper is 15 cents. Therefore, the estimated cost for printing 15,000 sheets of paper comes to \$2,250.

In accordance with Fla. Stat 119.0725, we'll need to redact any information that is confidential or exempt from disclosure under Florida law. We estimate that it will take approximately 2 minutes to process and redact each page, resulting in an estimated special service charge of \$33,568.28, based on the estimated actual labor costs incurred by the Supervisor of Elections Office pursuant to Florida Statutes Section 119.07(4)(d).

The total estimated cost for your EL68A request is projected at minimum to be \$35,818.28

Please note this is only a cost estimate. Should further time and resources be required to fulfill this request, additional payment will be requested. Reimbursement will be provided should the task take less time and/or resources to complete than estimated. If you would like us to process your public records request, please remit payment in cash or check to the Pinellas County Supervisor of Elections Office, 13001 Starkey Rd., Largo, FL 33773.
